

THE PERCY FITZPATRICK INSTITUTE - 50 YEARS

The Western Cape Birding Forum, as the regional representative of BirdLife South Africa and incorporating 2,000 members of bird clubs in the region, congratulates The Fitz on 50 years of outstanding scientific research and education in the field of ornithology. Their contribution to the conservation, knowledge and enjoyment of birds is unequalled in Africa and the re-write of *Roberts Birds of Southern Africa* - launched as *Roberts VII* in 2005 - has set a world standard for avian reference.

“We commend The Fitz on all they have achieved and look forward to a continued and rewarding partnership in the years to come”
